

Virtual Assignments with CESO

What Are Virtual Assignments?

CESO strengthens our partners' capacity through locally driven assignments delivered by CESO Advisors that provide training, mentoring and business and technical support. These advisory services may be delivered in country or remotely using the phone or the Internet, in what are known as virtual assignments.

How Do Virtual Assignments Work?

With an Internet connection and the proper tools, CESO Advisors can facilitate a transfer of knowledge and contribute their expertise in empowering partners to meet their goals.

Virtual assignments enable flexibility in assignment delivery and the opportunity to be creative in your approach to supporting partners. Assignments typically last one to two months.

Are Virtual Assignments Right For Me?

Factors for Success

- Open-mindedness and flexibility
- Reliable computer set-up and a solid comfort level with using and sharing information across web-based technology
- Previous experience delivering assignments with CESO, especially on a virtual basis

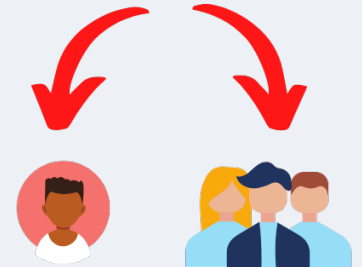

Types of Virtual Assignments

CESO Advisors deliver e-mentoring or virtual workshops through one-on-one support or group training to partners based on regional needs.

E-mentoring
One-on-one
